IT SERVICES

INTEGRATION & IT SUPPORT SERVICES FOR HEALTHCARE

ABOUT GESTALT IT TEAM

The healthcare industry saves lives, and today, more than ever, the world needs you to be as efficient as possible. Many IT departments are stretched thin and not able to take on emerging projects. Interface connectivity and electronic lab reporting can be a real burden on IT staff. That is where Gestalt's IT services team comes in, we work with you to find realistic solutions that make your life easier.

ELEVATING IT SUPPORT

The Gestalt IT Services team consists of experts in developing standard and proprietary connectivity solutions. We are passionate about delivering projects on time and exceeding expectations in many specialties including:

- ✓ **Legacy LIS Support:** Customize interfaces, automate workflow, perform upgrades, and synchronize data to free up staff to focus on other initiatives.
- ✓ **Electronic Lab Reporting:** Meet all your data exchange needs with a single connection to Gestalt Integration Cloud.
- ✓ **IT Staff Augmentation:** Our dedicated staff fills in a multitude of roles, including C-suite, with much needed support, project management, and added bandwidth to your IT department.
- ✓ **Workflow Optimization Consulting:** No matter what solutions you are using, we ensure that you are optimizing your applications and human resources.
